

Woodward & Lothrop

New York—WASHINGTON—Paris.

Your Porch Will Be Cool
If You Put Up

VUDOR SHADES

New
Vudor
Ventilating
Porch Shades
Vudor Invention and Patents.

You will be able to enjoy your porch during the hottest days of summer if you have the light and heat shut out with Vudor Shades. In addition, Vudor Shades make your porch private, preventing those outside seeing you, but not obstructing your view. You can dine on your porch, use it as a reception room for entertaining, for your sewing during the day, for reading and lounging morning and evening, for sleeping at night, for the children's play room, where they will be free from danger.

All sizes, priced from \$2.50 to \$10.00.

Fifth floor—G. street.

1,500,000 Cigarettes Replace Smokes Lost On Voyage to France

The Young Men's Christian Association's shipment of tobacco for the American troops in France has been lost. Word came from Paris today from the Red Cross commission to France, saying no suitable tobacco to replace the lost shipment was obtainable there, and urged that ten tons of tobacco be sent at once.

The Red Cross War Council immediately accepted an offer of the Liggett & Meyers Tobacco Company to donate 1,500,000 cigarettes, 25,000 packages of smoking tobacco and 10,000 cuts of chewing tobacco, which will be forwarded to the American troops at once. France has agreed to admit the tobacco free of duty, as well as all other articles for the American soldiers.

Gloves of Seal Gullet Instead of Mailed Fish, Is Wartime Emergency

Insults are going to be added to injury if you strike a man with a pair of the gloves a wartime-economy-made Department of Commerce is going to force on the American people. For the person struck will not only be hit with a glove, but with a fish.

It's this way. When properly treated a seal's gullet is said to make a good substitute for glove leather. Whether it will be cheaper or not is not stated. Five thousand gullets are on their way to this country on the steamer Roosevelt, due soon at Seattle from the Pribilof Islands, so the public may be given a chance to see.

A Norwegian scientist has advanced the theory that Saturn's rings are electrical phenomena, produced by the radiation of luminous particles from the planet, which constantly renews them.

For These Hot Days—

A \$5 "G-E" Electric Iron

SAVE YOURSELF \$1.50

GIBSON NOW DRIVES FRENCH AMBULANCE

Washington Society Man Is Doing "His Bit" for Allies.

At the wheel of a French ambulance instead of an American racing car, Preston Gibson, Washington society man, popular in clubs and drawing-rooms in this city and Newport, is doing his bit for the allies, brief chase from the front to friends here indicate.

According to the messages, Mr. Gibson has been connected with the Norton-Hargis ambulance unit for over a month and is anxiously awaiting the arrival of the first American troops in the front-line trenches.

Since he left Newport for Plattsburg early in the summer, after subletting his cottage, "The Blue Bird," at the fashionable resort, friends of Mr. Gibson, until news was received yesterday, have lost track of him. Dispatches say that he reached Paris but a few days after the arrival of Gen. Pershing. He witnessed the parade of the American soldiers on the streets of Paris on Independence Day. Mr. Gibson was born here in 1879, a son of the late Senator Gibson of Louisiana. He is a graduate of Yale, class of 1900. He is a member of the National Steeplechase and Hunt Club, of Chicago; the Metropolitan, Chevy Chase, Racquet and Squash Clubs, of Washington, Yale, Lamb, Strollers and Players Clubs of New York, and the Clam bake Club, of Newport.

CAPITAL WOMEN ON IMPORTANT MISSION

Join Husbands in Special Auto Trip Sanctioned by War Department.

Flushed with enthusiasm, Mrs. Rosa Fulkerson and Mrs. Joseph L. Margary, the women who started the first transcontinental auto relay tour, sanctioned by the United States government, yielded their Sacramento over to the second relay last night at Staunton, Va., after completing the run from this city to Staunton with practically no mishaps.

The purpose of the transcontinental run is to ascertain the advisability of using motor appliances in the transmission of government messages which could not be well trusted to telegraph lines. In a strongbox at the rear of the car is placed papers from President Wilson, Secretary Baker and Postmaster General Hughes, addressed to the governor of the State of California, Maj. Gen. Hunter Liggett, and the postmaster of San Francisco.

Those interested in road building are regarding the race with watchful eyes since upon this tour depends the action which will be taken by Congress in the matter of giving better roads to long distance tourists, and the building of the defense highway from Washington across the continent to California.

ENGINEERS ENJOY VAUDEVILLE SHOW

K. of C. Entertainment Breaks Grind of Student Officers.

Featured by songs, dances and other vaudeville numbers, the entertainment given last night in the open-air amphitheater at the Engineers' Training Camp, at American University, proved a very welcome diversion for the 600 student officers after a week of hard work building bridges, felling trees and combat practice in trench warfare. The entertainment was held under the auspices of the Knights of Columbus Dramatic Club, and was a most successful event. Joseph Deegan and Bernard Fitzgerald, who rendered several ballads, were given a number of encores. One of the notable features of the program was the dancing numbers rendered by Miss Lorraine Luitich in red, white and blue costume. Several humorous recitations were given by Miss Alice Jarvis. Miss Agnes Whalen sang a number of popular selections which were much appreciated by the audience. Other features included piano and violin solos by Arthur McCraight and Charles Schoeneman, and humorous songs and sketches by Private Doe, of the Forestry Regiment.

Then entertainment was under the general direction of Francis J. P. Cleary, president of Knights of Columbus Dramatic Club.

LETS CONTRACT FOR AIRCRAFT FACTORY

League Island to Have Capacity of 1,000 Planes a Year.

Secretary Daniels yesterday announced the letting of contracts for a million dollar airplane factory at the League Island Navy Yard, Philadelphia.

The factory will be in operation in one hundred working days and will have a capacity of 1,000 small planes a year.

In making the announcement Secretary Daniels said that the purpose of the new factory was to relieve private makers of the experimental work they have been undertaking so that all their facilities could be devoted to standardized production.

The new factory will also supply a part of the Navy's needs in airplanes. There is an aviation facility at the yard and ample facilities for practice with hydroplanes. When completed the new factory will employ 2,000 hands.

IMPORTING ICE HERE TO SUPPLY DEMANDS

More than a hundred tons of ice are being imported into Washington each day from nearby Maryland and Virginia towns to make up for the ever-increasing shortage in the local supply. Small dealers yesterday announced an added increase of 10 cents a ton, making the price to the consumer 40 cents.

The American Ice Company and several of the other large plants said that they would make no raise in price, although their supply was far from large. Several cool days are required, local dealers say, to lessen the demand and allow time for a balance to accumulate.

FRENCH USE POTATO FLOUR.

Paris, Aug. 7.—M. Violette, minister of supplies, has issued an order authorizing the mixture of potatoes and flour for making bread. He states it is necessary in view of the shortage of cereals. The potato crop promises excellent results, he says.

Gold is being mined at a depth of more than 5,000 feet in South Africa, and it is believed that the shafts can be sunk 3,000 feet more.

A large, healthy pigeon seated on the minute hand of the Poughkeepsie (N. Y.) town clock caused the mayor to miss his train by twenty minutes on a recent day.

Laughing Gas Factory And Big Ether Shipment To Be Rushed to France

Announcement was made yesterday that 10,000 pounds of ether are to be rushed to France in response to an urgent appeal from Maj. M. P. Murphy, head of the Red Cross Commission, there.

In addition facilities for the construction of a plant to manufacture laughing gas, another valuable anesthetic, and men to operate the plant, are to be sent.

A shortage of surgical apparatus is to be met by the establishment of a small factory in France, where instruments may be repaired. All will be sent from this country, even the experts necessary to operate these plants.

LOCAL BOY WOUNDED FIGHTING IN FRANCE

Hun Bullet Sends C. V. Dessez to Base Hospital.

Charles V. Dessez, former Washington boy, who is enlisted in the First Canadian Battalion as a motor cyclist scout, now lies in a base hospital somewhere behind the lines in Northern France, severely injured by a shot through the head. A cablegram announcing his wound was received yesterday by his mother, who lives at 340 Eleventh street southeast.

Young Dessez joined the foreign legion in September, 1915, but since last spring has served as a motorcycle rider with the Canadian troops. He is a graduate of McKinley Manual Training School, where he got the technical experience fitting him as an ambulance driver, in which capacity he served in the foreign legion. After graduating, he worked in the water department of the District government.

On the back of a picture showing him in the uniform of a motorcycle scout, which his family received July 7, just three weeks before he fell in the line of duty, the following appears in his own handwriting: "The army authorities have adopted these little engines of war. A large number of them are used in active service, and they are in great demand for scouting and reconnoitering purposes when rapidity of movement is so essential. Three ammunition boxes are carried beneath the left axle of the car and are easily accessible to the rider who is protected by a bullet-proof shield."

Dessez is 26 years old. His 20-year-old brother, Lester, a former student in the Eastern High School, was in the same regiment, and is in command of the regiment. He is in command of the regiment. He is in command of the regiment.

FORESTERS ARRIVING AT UNIVERSITY CAMP

Col. Woodruff Commands Regiment of Woodsmen.

The first contingent of the Tenth Regiment of Foresters, 20 strong, has arrived at its camp at American University, near St. Alban. A full battalion of this regiment, which will probably be one of the very first of the forestal army to see service in France, will be assembled in camp within a week. Barracks similar to those erected for the student officers at Fort Myer have been built to accommodate the soldiers. Col. Woodruff is in command of the regiment.

The duty of the Foresters will be to prepare timber needed by the armies in France—railroad ties, trench timbers, mine props, bridge timbers, lumber and cordwood. The work will be performed behind the battle line in France, but may fall within the danger zone. The members of the regiment are all regularly enlisted recruits, and are picked woodsmen. Its members are uniformed and armed like other units in the United States army. Practically all the officers of the command are now in camp, and have already begun to teach the recruits military discipline and teamwork through thoroughgoing drills.

CHORUS GIRLS LEAD HOWARD'S CREDITORS

Bankrupt Playwright Borrowed Money from 80 Fair Actresses.

New York, Aug. 7.—Chorus girls lead the list of creditors of Joseph E. Howard, playwright, actor and song writer, who filed a voluntary petition in bankruptcy today. Eighty chorus girls named among the 100 creditors are listed as having loaned from \$5 to \$50. Emma Carus is listed as a creditor, Howard borrowed \$35 from her. Howard lists his liabilities at \$127,283, his assets as nothing. He says he owns two suits of clothes. One a street suit, much worn, the other a dress suit, which has outworn its usefulness.

Howard was the husband of Mabel Barrison, of the Barrison Sisters, and of Countess Morick de Beaufort. The countess shot and killed herself four weeks after marrying him. Howard has been a familiar theatrical character from Broadway to San Francisco. He rose to an enviable reputation in the theatrical world from a newboy in Denver.

Wife Shoots to Death Her Husband's Affinity

Pinetown, Ky., Aug. 7.—The unwritten law will be pleaded by Mrs. John Pope, who shot and killed Miss Roxie Brock, a Southern beauty, yesterday.

Unable longer to bear stories in which the names of her husband and Miss Brock were connected, Mrs. Pope left her two small children with a neighbor and calmly walked to the Brock mansion, where she called the girl onto the veranda and shot her.

Falkenhayn at Jerusalem To Lead Turks on Bagdad

Paris, Aug. 7.—Gen. von Falkenhayn is now in Jerusalem to lead a Turkish offensive against the British which will be for its aim the attempt to recapture Bagdad.

Hillquit Again Refused Passports.

New York, Aug. 7.—Morris Hillquit, the Socialist leader, has a second time been refused a passport by the State Department to go abroad and attend an international Socialist conference, it became known here today.

To Keep Conquered Territory.

Zurich, Aug. 7.—On official dispatch from Sofia today, Premier Radoslaw of Bulgaria, saying Bulgaria will keep all territory conquered by her in this war.

MANDO Removes superfluous hair from under the chin. The new style gowns make this preparation indispensable. Sold by Good Drug and Department stores.

THE DAILY STORE NEWS OF LANSBURGH & BRO.

Editorial

We certainly did "get our foot in it" the other day when we wrote the editorial about the offer we had had on some women's fall suits now in stock.

Every department manager in the store has been to see us half a dozen times with stories of new fall merchandise which they got below present prices. And, they come with the proof—bills and late list prices from the manufacturers.

Of course, it's impossible for us to tell you the story of each. It's about the same in each instance—"A careful, EARLY placing of orders with reliable makers."

Taken all in all, it looks as though it was going to be a BIG YEAR for Lansburgh & Bro. patrons—large assortments and extra low prices. It will certainly pay you to keep a close eye on our advertisements.

WIZARD

White Shoe Cleaner

Women who have tried it pronounce it the best they have found at any price.

It is also excellent for cleaning white gloves of any kind.
